

DAIRY PACK DP80R | BUCKET FILLER

DAIRY PACK DP80R Basics

- Bucket Rotary FS machine for dairy and food products
- Suitable for PS, PP, PET
- DP80R fillers are designed for up to 2 different formats and can accommodate volumes ranging from 1,000g to 5,500g
- Speed: 720 to 1,400 buckets per hour

DAIRY PACK DP80R Strengths

- Specification Driven Design
- Compact with Easy Access
- Gentle Product Handling

DAIRY PACK DP80R has been designed for yogurt, cream, spreadable cheese, butter and dressings

DAIRY PACK DP80R | INDEXED BUCKET ROTARY FILLER

Specifications Driven Design

- Production speed up to 1,400 cups/hour
- Customizable speed up to 23 cycles per minute
- Footprint (m) : 2.4L x 1.9W x 2.6H
- Filling various volumes from 1,000 to 5,500g
- Format: Circular and rectangular shapes
- Materials: PS, PP, PET

Compact with Easy Access

- Up to 2 different formats
- Machine stations can be added to fit your needs (decontamination, filling stations, control stations, lid or overcap, topper...)
- Designed for fast and efficient change-over
- High accessibility for inspections, maintenance and cleaning operations
- Customizable HMI visualization for optimized production reporting

Gentle Product Handling

- Suitable for most homogeneous and pumpable products with fruit particulates (5x5x5 mm, larger products can be studied)
- Synerlink offer a global commitment for hygienic, integrity and accuracy of the filled products
- Fill test available for product optimization and to facilitate vertical startup
