

MATEER 4800 | INLINE DUAL HEAD

Engineering Excellence • Accuracy • Reliability

The 4800 is the next step in a quest for even greater production speed. In addition to a conveyor, this automatic inline filler adds a second filling head, providing filling of 50-55 CPM. This can be increased depending on the product and volume being filled.

This dual-head unit handles the same broad range of products for the food, beverage, pharmaceutical, home/personal care and agricultural markets. This versatility is coupled with the meticulous accuracy of equipment that's engineered to achieve your specific project goals. In short, the 4800 is a welcome and worthy addition to your production line as you work to achieve greater speed and productivity.

Every Mateer is supported by OEM parts, an in-house team of field service experts who can assist with installation, assessments, repairs and training. Our machines are built to last 25 years, but we proudly service equipment installed over 60 years ago!

MATEER 4800 | INLINE DUAL HEAD AUTOMATIC FILLER

Applications Served

Market	Food	Beverages	Home & Personal Care	Agriculture	Pharma- / Nutra-ceuticals
Powders—Free Flow	Sugar, Granulated Spices, Dried Beans	Whole Bean Coffee, Ground Coffee, Drink Mixes, Instant Coffee, Tea, Cocoa	Bath Salts, Corn Starch, Scrubbing Compounds	Seed, Pest Repellent	Medications, Vitamins, Fiber Supplements
Powders—Non-Free Flow	Brown & Confectioners Sugar, Granulated & Ground Spices, Cake & Biscuit Mixes, Flour, Soup Mixes	Ground Coffee, Tea, Cocoa, Infant Formula	Corn Starch, Dental Powder, Face Powder, Scrubbing Compounds, Eye Makeup	Fertilizer, Pest Repellent	Medications, Vitamins, Fiber Supplements
Creams, Pastes, Slurries	Soup Base, Nut Butters, Oils, Icing, Batter, Sandwich Spread, Marshmallow Fluff		Cosmetic Creams, Mascara, Battery Acid, Soldering Paste, Hand Cleaner, Grout		

Engineered for Performance

- Fills up to 50-55 CPM
- Accurate to +/- 1.5% made even more precise with testing
- Can self-diagnose problems throughout production line via PLC system, increasing production uptime
- Lift for packing and bottom-up work in conjunction—no wasted material and voids in filling
- Easy-adjust guide rails for enhanced product control, handling round or non-round metal, glass or composite containers
- No operator needed, just someone to feed containers into the machine, freeing up personnel for more complex operations

Built for Reliability

- Quick disconnect/self-aligning hopper supports for easy changeovers and clean ups
- Product contact parts are 304 or 316 stainless steel to stand up to high temperatures, alkalis, acids, salt and for easy cleaning
- Filler heads cast from a single piece for greater durability
